responsibilities of the Administrator prescribed by law.

Specific limitations with respect to FAA's approval of an Airport Noise Compatibility Program are delineated in FAR Part 150, Section 150.5. Approval is not a determination concerning the acceptability of land uses under Federal, State or local law. Approval does not, by itself, constitute an FAA implementation action. A request for Federal action or approval to implement specific Noise Compatibility Measures may be required. An FAA decision on the request may require an environmental assessment of the proposed action. Approval does not constitute a commitment by the FAA to financially assist in the implementation of the program nor a determination that all measures covered by the program are eligible for grant-in-aid funding from the FAA under the Airport and Airway Improvement Act of 1982, as amended. Where Federal funding is sought, requests for project grants must be submitted to the FAA Airports District Office in Burlingame, California.

Clark County, Nevada submitted to the FAA on March 9, 1994, the Noise Exposure Maps, descriptions, and other documentation produced during the Noise Compatibility Planning study conducted from January 1992 through December 1992. The Noise Exposure Maps were determined by the FAA to be in compliance with applicable requirements on August 19, 1994. Notice of this determination was published in the **Federal Register** on August 31, 1994.

The study contained a proposed Noise Compatibility Program comprised of actions designed for phased implementation by airport management and adjacent jurisdictions from the date of study completion to, or beyond, the year 1999. It was requested that the FAA evaluate and approve this material as a Noise Compatibility Program as described in Section 104(b) of the Act. The FAA began its review of the program on August 19, 1994 and was required by a provision of the Act to approve or disapprove the program within 180 days (other than the use of flight procedures for noise control). The Noise Compatibility Program was approved by the FAA on February 15, 1995. Failure to approve or disapprove such a program within the 180-day period shall be deemed to be an approval of such program.

The submitted revision to the approved program contained twenty two proposed actions for noise mitigation on and off the airport. The FAA completed its review and determination that the procedural and

substantive requirements of the Act and FAR part 150 have been satisfied. The overall program was approved by the Assistant Administrator for Airports effective February 15, 1995.

Outright approval was granted for twenty (20) of the specific program measures. Two (2) measures were disapproved pending receipt of additional information. The approved measures included existing flight track policies, existing runway use programs, public information programs, acquisition of property or aviation easements in noise exposure areas of 65-75 dB DNL, establish soundproofing programs, and continue redevelopment programs with County, State and other Federal agencies. The two measures disapproved pending receipt of additional information consisted of (1) use of North Las Vegas Air Terminal for general aviation and (2) analyze revising the Oasis Standard Instrument Departure (SID) procedure.

This determination is set forth in detail in a Record of Approval endorsed by the Assistant Administrator for Airports on February 15, 1995. The Record of Approval, as well as other evaluation materials and the documents comprising the submittal, are available for review at the FAA office listed above and at the administrative offices of Aviation Department, Clark County, Nevada.

Issued in Hawthorne, California on March 23, 1995.

### **DEPARTMENT OF THE TREASURY**

# Office of the Comptroller of the Currency

## Information Collection Submitted to OMB for Review

**AGENCY:** Office of the Comptroller of the Currency, Treasury.

**ACTION:** Extension of comment period for information collection submitted to OMB for review and approval under the Paperwork Reduction Act of 1980.

SUMMARY: The Office of the Comptroller of the Currency (OCC) is extending the comment period on proposed revisions to the Country Exposure Report and the Country Exposure Information Report (FFIEC 009 and 009a) submitted to the Office of Management and Budget for review under the Paperwork Reduction Act of 1980.

**DATES:** Comments on this information collection are welcome and should be submitted by April 24, 1995.

**ADDRESSES:** A copy of the submission may be obtained by calling or writing the OCC contact.

SUPPLEMENTARY INFORMATION: On March 3, 1995, the OCC published a notice in the **Federal Register** (60 FR 12027) advising that it had sent to the Office of Management and Budget, for review under the Paperwork Reduction Act of 1980, proposed revisions to the Country Exposure Report and Country Exposure Information Report (FFIEC 009 and 009a). The notice requested public comment by March 23, 1995.

The Board of Governors of the Federal Reserve System (Board of Governors) also utilizes the FFIEC 009. An interested party has requested extension of the public comment period until April 24, 1995. The OCC believes that allowing additional time for public comment is warranted, and is extending the public comment period.

Additionally, the OCC expects to delay the implementation date of the proposed revisions to the reporting form until at least September 30, 1995, to provide national banks with sufficient time to modify their systems and to resolve conceptual issues related to the report.

#### Internal Revenue Service

Nonconventional Source Fuel Credit; Publication of Inflation Adjustment Factor, Nonconventional Source Fuel Credit, and Reference Price for Calendar Year 1994

**AGENCY:** Internal Revenue Service (IRS), Treasury.

**ACTION:** Publication of inflation adjustment factor, nonconventional source fuel credit, and reference price for calendar year 1994 as required by section 29 of the Internal Revenue Code (26 U.S.C. 29).

SUMMARY: The inflation adjustment factor, nonconventional source fuel credit, and reference price are used in determining the availability of the tax credit for production of fuel from nonconventional sources under section 29 of the Internal Revenue Code.

**DATES:** The 1994 inflation adjustment factor, nonconventional source fuel credit, and reference price apply to qualified fuels sold during calendar year 1994.

**INFLATION FACTOR:** The inflation adjustment factor for calendar year 1994 is 1.9207.

**CREDIT:** The nonconventional source fuel credit for calendar year 1994 is \$5.76 per barrel-of-oil equivalent of qualified fuels.

PRICE: The reference price for calendar year 1994 is \$13.19. Because the above reference price does not exceed \$23.50 multiplied by the inflation adjustment factor, the phaseout of credit provided for in section 29(b)(1) of the Internal Revenue Code does not occur for any qualified fuel based on the above reference price.
